Personal Aspects

I am a designer with lot of passion and positive attitude towards learning and interacting with people to help with their needs. I myself as a designer went through lots of presentations front of small and big crowds. I believe this is a big plus for better understanding towards kids. I also taught classes in english academic school.

Back than it was very sensational feeling to teach the students with different personality.

I will be very happy to be part of the teaching team again and dedicate my self towards students and other teachers. Kids have always been inspiration to me, and i will do everything within me to inspire them for their brighter future.

WORK EXPERIENCE

Care giver

Apr 2006- Dec 2007

I worked as a caregiver in a rest home for the elderly. Here I learned how to take care for disabled people and elderly. my job here was to also make sure patients feels comfortable without their family. I also learned that it is important to communicate with people appropriately because miscommunication sometimes can lead to disaster.

JLS English Teacher

Oct 2009-Nov 2010

I worked in JLS as an english teacher for 1 year. Teaching in JLS was a very sensational experience. I acquired knowledge about dealing with many kids with different characteristic. I taught all primary level of science, social study, history, art in Full english. No korean language was allowed to be used in JLS. so it was a new challenge but valuable experience to teach english only using english.

Sakura Japanese restaurant Waiter

Mar 2002- Dec 2003

I worked as a waiter in Sakura Japanse restaurant. Mainly served food to customers. From here I was able to understand the importance of greeting people with smile and positive manner. I enjoyed working here with the team. this job was the starting point for me to grow my communication skills and how to do well in teamwork.

Morning dew Cafe Manager

Feb 2004-Mar 2006

I worked as a manager in Morning dew cafe. Taking care of the team to become one and work efficiently with the speed. Taking care of many responsibility made me realize the crucial things when it comes down to looking after the business.
