Objective

I want to pass along the knowledge, understanding, and wisdom I have acquired in my lifetime. I also want to give back to society something in return for what I have received. My goal is to be a "Role Model" and the best teacher I can be. I believe that the students are not here for the teachers. We are here for them. I am grateful for the opportunity to be involved in a world-wide issue; that of providing an education to the future leaders of our world which will help them to be instrumental in making this a better world to live in. When we teach, we learn. There is no better calling in life than that of being a teacher.
