

NOMFUNDO PEACH

Creative • Copywriter • Digital
Marketing consultant

PROFILE

I am a fine artist with marketing, copywriting and facilitation experience. I live in Gauteng, South Africa. I am passionate about reading, writing, art and teaching. I worked as a facilitator for design students for the course - digital African designs for textiles. I want to do something impactful and I believe teaching English is an opportunity for me to share my passion as well as shape the future generation. I am dedicated, organised and push myself to be the best at what I do. I am competent and I'm always prepared to go the extra mile because I strive for excellence. I enjoy engaging others because we can learn from each other through exchanging skills, stories, language and culture. Getting the chance to teach means I get to learn about the rich culture and heritage of South Korea.
